

May 17, 1950.

Dr. Raymond Latarjet,  
Laboratoire Pasteur,  
Institut du Radium,  
26 Rue d'Ulm,  
Paris 5, France.

Dear Latarjet:

Since my letter of May 1, there have been some modifications of plans which could bring you here.

A meeting of the informal Midwest Virus Seminar, funds for which are administered by Dr. Leo Szilard at Chicago, is being arranged for June 10-11 to be held here in Madison. However, I am told that these funds could be used only for your expenses here and in travelling from Chicago to Madison. To cover your trip from Cleveland to Chicago, the Institute of Radiobiology and Biophysics at the University of Chicago is arranging a seminar which they hope you will find time to give enroute from Cleveland to Madison, probably either on June 9 or 12. I think that you would be able to route your flights Cleveland - Madison - Chicago - Cleveland without great difficulty. I hope that you will be able to work this program into your itinerary, and we are looking forward to seeing you.

Since the arrangements from now on are more in the hands of the Chicago group, I suggest that instead of calling me from Cold Spring Harbor, that you phone either Dr. Szilard or Dr. Aaron Novick, at the Institute of Radiobiology.... Their phone number in Chicago is BUTterfield 8-4800. It would probably be advantageous for you to write ahead when you expect to be able to call them from Cold Spring Harbor.

Yours sincerely,

Joshua Lederberg

CC: Szilard/
